Marion County

Health Bulletin

The Mission of the Marion County Health Department is to improve the quality of life through preventing disease and preventative health

The health department is now offering FIT Screenings (Fecal Immunochemical Test). FIT Test is a non-invasive sample test that can be done at home and that screens for blood which could be due to colon cancer.

The American Cancer Society states that colorectal cancer is one of the 5 most common cancers in men and women in the United States. It is also the 2nd leading cause of cancer deaths in the U.S.

Colonoscopies can detect and remove polyps before they turn into cancer.

When colorectal cancer is found and treated early, the 5-year relative survival rate is about 90%. However, since many do not get tested as they should, only about 4 out of 10 persons are diagnosed at this early stage.

LOWER YOUR RISK

- Achieve and maintain a healthy weight
- Be physically active
- Eat at least 2 1/2 cups of fruits and vegetables daily
- Choose whole grains over refined grains
- Limit alcohol to 1 drink per

day for women and 2 per day for men

- Don't use tobacco in any form

SIGNS & SYMPTOMS

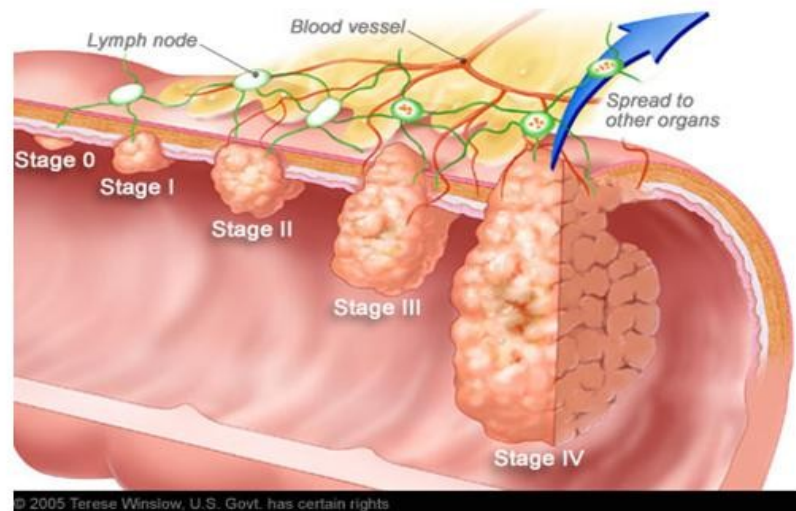

- Not everyone shows symptoms
- Blood in or on your stool
- Stomach pain, aches, or cramps
- Unexplained weight loss
- A change in bowel habits
- Weakness or fatigue

FIT SCREENING

- This screening is for those ages 50-75 who **do not** have an

increased risk and have not had a colonoscopy in the last 10 years or a sigmoidoscopy in the last 5 years.

Call the health department at 618-548-3878 for further information.
