Marion County

Health Bulletin

The Mission of the Marion County Health Department is to improve the quality of life through preventing disease and preventative health maintenance.

It has been 11 years since passage of Smoke-Free Illinois Act (SFIA) on January 1, 2008. The SFIA requires that public places and places of employment must be completely smoke-free inside and within 15 feet from entrances, exits, windows that open and ventilation intakes.

Second hand smoke has 7,000 chemicals, including 70 that cause cancer. Exposure to second hand smoke causes an estimated 41,000 deaths from lung cancer and heart disease among adults each year in the United States. Second hand smoke exposure in nonsmokers increases the risk of stroke 20% to 30%.

Since that passage of SFIA hospitalizations from asthma, heart attacks and chronic obstructive pulmonary disease have decreased by 20.5%

In an effort to protect Marion County residents from drifting smoke while they enjoy outdoor sports and other activities Marion County Health Department is contacting communities in the county to introduce a new policy initiative to introduce Smoke-Free

Parks, playground, skate board, bike parks, hiking and walking trails, outdoor sports fields, outdoor spectator viewing area (ex. bleachers, etc.) and other festivals.

The health department has been surveying the community regarding the policy initiative.

A few communities have been conducted thus far by the health department regarding the community adopting the policy.

If anyone is interested in more information regarding a smoke-free park policy for their community they may contact **Marion County Health Department at 618-532-6518.**
