Marion County

Health Bulletin

The Mission of the Marion County Health Department is to improve the quality of life through preventing disease and preventative health maintenance.

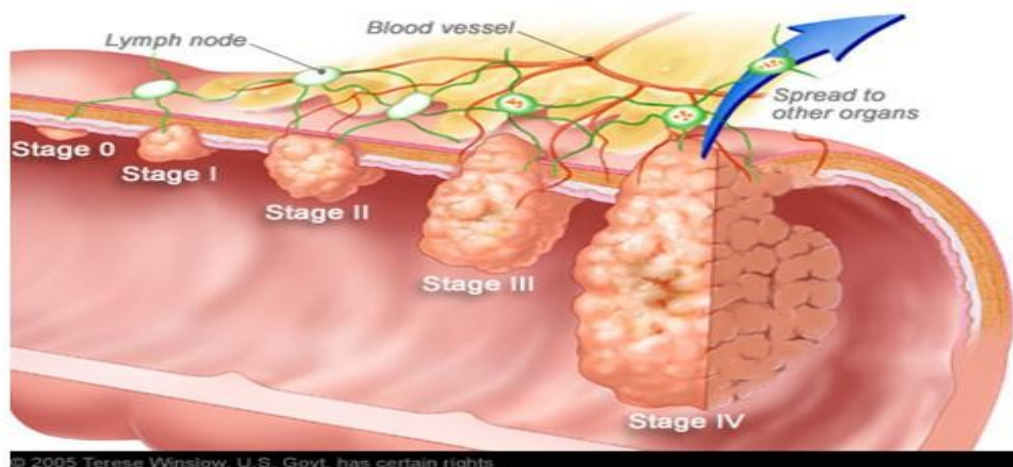

March is Colorectal Cancer Month

March is Colorectal Cancer Month, the health department offers the FIT Test (Fecal Immunochemical Test) available for **free** to those who qualify. FIT Test is a non-invasive sample test that can be done at home and screens for blood in the stool which could be due to colon cancer. This screening is for those ages 50-75 who do not have an increased risk and have not had a colonoscopy in the last 10 years or a sigmoidoscopy in the last 5 years.

The American Cancer Society states that colorectal cancer is one of the 5 most common cancers in men and women in the United States. It is also the 2nd leading cause of cancer deaths in the U.S.

When colorectal cancer is found and treated early, the 5-year relative survival rate is about 90%. However, since many do not get tested as they should, only about 4 out of 10 persons are diagnosed at this early stage.

Call the health department to see if you qualify for this free test. 618-548-3878.
