Marion County

Health Bulletin

The Mission of the Marion County Health Department is to improve the quality of life through preventing disease and preventative health

Marion County Health Department is supporting the President's Council on Fitness, Sports and Nutrition in honor of May being National Physical Fitness and Sports Month. During the month of May, we challenge all adults to get 30 minutes of physical activity everyday.

Moderate activity includes things like walking fast, riding a bike, dancing, swimming, and raking leaves. Do muscle-strengthening activities like lifting weights or using exercise bands—at

National PHYSICAL FITNESS & SPORTS Month

least 2 days a week.

Did you know that regular physical activity increases your chance of living a longer, healthier life? It also reduces your risk for high blood pressure, heart disease, and some types of cancer.

Regular physical activity can also help with your mental health. Often when you're low, regular physical activity picks you up, or if you're feeling anxious, physical activity can calm you down.

Throughout the month and beyond, the health department is encourag-

ing children and families to get up, get out and be active. Whether it's running around on the blacktop before school or work, riding a bike or walking around the neighborhood with your family after dinner.

Physical activity is for everyone. No matter what shape you are in, you can find activities that work for you. Together, we can rise to the challenge and get more active during the month of May!
