Drug Testing

- Five- and Nine-Panel Urine Drug Testing

Urine testing, one of the most common screening methods, is an accurate and reliable way to detect casual drug use that occurred within the past 72 hours.

- Hair Testing

Hair testing for drugs of abuse is the only drug-testing method available that provides up to a 90-day drug use history.

Medical Reserve Corps

The Medical Reserve Corp's (MRC) mission is to support community efforts to utilize local medical and health volunteers during emergencies and at other times of community need. The MCHD's MRC will help in efforts to strengthen the Public Health Infrastructure and Emergency Preparedness for our community to improve health, safety and well-being of citizens within Marion County. Call 548-3878 to see how you can be a volunteer.

Communicable Disease Program

- Disease Surveillance
- Investigation of Infectious Diseases
- Investigation of Sexually Transmitted Diseases

HIV, STD, and Hepatitis Testing

- Confidential STD testing for Chlamydia, Gonorrhea, HIV and Syphilis

Testing is available to clients for \$20. Clients must meet Department of Public Health's screening criteria. Patients will be referred to local medical facility for treatment. The office visit fee will be based on a sliding scale according to income and family size. For all criteria, call either office or visit our website.

Call for an appointment.
