# Health Bulletin

*The Mission of the Marion County Health Department is to improve the quality of life through preventing disease and preventative health maintenance.*

Public Health  
Prevent. Promote. Protect.

National Public Health Week is observed during the first week of April every year. It's a week to recognize that everyone should lead healthier lives, irrespective of where they live, work, or come from. The first National Public Health Week took place in April 1955 and was organized by the American Public Health Association (A.P.H.A.) The initiative has become an important movement to highlight issues that can improve the health and happiness of a nation.

At the Marion County Health Department our mission for the citizens of Marion County is to improve the quality of life through preventing disease and preventative health maintenance.

## **The Marion County Health Department services include:**

Adult and children immunizations • Discounted Lab Work • Capillary and Venous Lead Testing • Free Blood Pressure and Blood Sugar Screenings • Vision and Hearing Screenings.
