Health Bulletin

The Mission of the Marion County Health Department is to improve the quality of life through preventing disease and preventative health maintenance.

national IMMUNIZATION awareness month

August is here! August is National Immunization Month (NIAM). NIAM is a yearly observance in August to highlight the importance of vaccination for people of all ages from infants to elderly. The goal of NIAM is to raise awareness about the important role vaccines play in preventing serious, sometimes deadly, diseases.

Why are vaccines so important?

- Vaccines protect against serious diseases.
- These diseases still exist and outbreaks do occur.
- Vaccines are recommended throughout our lives.
- Vaccines are very safe.

Many adults and children missed check-ups and recommended vaccinations during the past two years following disruptions from COVID-19.

Recommended vaccines is one of the best things you can do to protect you and your child and the community from serious diseases that are easily spread. Talk with your healthcare provider to see if you or your child are up to date on vaccinations.

The health department offers immunization clinics every week.
